

BATTERY REGENERATING TECHNOLOGY

ENERGIC Plus[®]

THE ENERGIC **REPLUS** BATTERY REGENERATOR

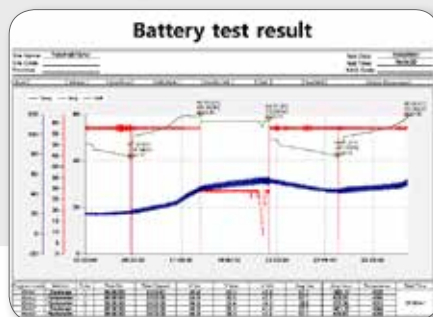

Revive your old and used batteries. Sulphation of lead-acid batteries is the main reason for capacity loss and malfunctioning. With our REPLUS technology you can now give your batteries a second life.

APPLICATION FIELD

Every lead-acid-based battery that is commonly used in cars, forklifts, golfs carts, reachtrucks, cleaning machinery ...

- starter batteries, traction batteries, semi-traction batteries, high-power stationary batteries (UPS)

The normal lifespan of batteries is around 4-5 years. Our new ENERGIC REPLUS battery regenerator prolongs the lifespan of your battery with at least another year. When your battery is maintained properly, it can easily continue for another 2-3 years.
