

# SmartBlinky

Let your batteries tell you when they're thirsty

**Problem:**

Batteries may sustain damage if the electrolyte level is too low

**Solution:**

SmartBlinky alerts and reminds you when it is time to top up your batteries

## SmartBlinky ADVANTAGES

### Saves money

---

- Low investment cost, helps to prevent costly battery replacement
- Prolongs battery life: never lets a battery dry out

### Saves time

---

- Reduces labor time wasted by checking battery levels
- Advanced technology eliminates false indications, maximizes watering intervals

### Easy maintenance

---

- Allows you to quickly detect the machines of which the batteries need water

### Helps to protect your battery

---

- SmartBlinky informs you when the electrolyte level drops below a set level

### Easy to use

---

- Produces bright clear signals
- Variety of options to meet your needs

### Safest electrolyte level monitor on the market

---

- Low voltage (4 V nominal)
- Fuse-protected
- Low current draw
- Internationally certified

### Durable design

---

- Built to withstand the harsh industrial battery applications

# SmartBlinky RANGE

## Blinky – REF 151TA2998

- LED blinks green when electrolyte is OK
- LED goes out when water is needed
- Reverse polarity protected
- Translucent overmold super bright LED
- Low-cost solution for electrolyte monitoring

## SmartBlinky Cyclops – REF 144TA5920

- Ideal for batteries that don't leave the truck
- LED is mounted in a rugged connector which is located behind the battery connector
- Whenever battery is disconnected from the charger, LED is in the operatives hand so the warning signal can't be missed

## SmartBlinky – REF 151TA2272

- LED blinks green when electrolyte is OK
- LED blinks red when water is needed
- Super bright LED
- Eliminates false indication and maximizes watering intervals to prevent unnecessary watering
- 5-day delay option

## SmartBlinky Pro – REF 151TA2273

- Intelligent battery monitoring system with light and sound
- SmartBlinky Pro produces an audible alarm that alerts you even when you can't see the battery. The signal informs you if a battery needs watering and the variable frequency even tells you how long the electrolyte level has been low
- Brightest light indication on the market
- Revolutionary ease of installation
- SmartBlinky Pro indication to avoid boil over
